Gli originali di questi gioielli sono esposti al Museo d'Oro di Bogotá (Colombia). Solo grazie all'impiego della stessa antica tecnica utilizzata fino a 3000 anni fa è possibile ottenere la stupefacente fedeltà di queste repliche rispetto agli originali. La collezione di ciondoli, fermagli ed orecchini è stata realizzata sulla base di argento pregiato dorato a 24 carati.

Grazie allo spesso strato di applicazione dell'oro non si verificano reazioni allergiche quando si indossano i gioielli, poichè si è rinunciato ad impiegare qualsiasi metallo che può provocare allergie.
